

Store ingredients sustainably with the **NEW OXO Silicone Reusable Bags**

Keep food fresh at home or on the go with the NEW Silicone Reusable Bags from OXO, offering a durable and convenient storage solution that's kinder to the planet too. Whether you're keeping meat in the fridge, storing frozen vegetables in the freezer, taking fruit out to snack on or you've prepped lunch for work, this new range will transform your food storage game.

Made from LFGB certified and BPA-free silicone, the collection provides the convenience of disposable plastic bags but in a premium new format. Unlike cling film, tin foil and plastic bags that can only be used once, this collection of Silicone Bags can be used time after time, reducing waste and cost savings. Not only does the product help to replace single-use plastics, the bags are highly versatile and designed for a wide range of uses, as well as being incredibly easy to clean.

Tried reusable bags in the past but they didn't impress? Forget dirt traps, rips and seam separation, these new solutions from OXO won't disappoint, and have been designed to last, making them a sustainable investment that will pay off time and time again. Leakproof and dishwasher safe, the Silicone Reusable Bags also feature a unique dust-resistant finish to help repel unwanted dust and debris from sticking to the surface.

Beyond the kitchen

The Silicone Reusable Bags aren't just for food, you can use them when you're on your travels and at home. They are ideal for storing holiday essentials like passports, toiletries and more, keeping them safe and tidy. You could even use the Bags in the home to store make-up and toiletries, keeping all your essentials organised in one handy place.

With a range of bag sizes to choose from, these eco-friendly alternatives will quickly become your new go-to solution for better food storage. The handy flat bags are easy to stack in the fridge or freezer for compact storage, and slip easily into a bag for work, picnics or snacks. The standing bags sit upright, and are the perfect partner for larger food items or lunches, as well as dry ingredients like nuts and chocolate for baking.

The secure seal keeps food fresh, so you can transport pre-made salad, fruits and snacks to work with ease. Plus, they prevent leaks, so you can feel confident there

will be no spills when storing marinated kebabs in the fridge. The generous-sized grab tabs make it easy to open and close the bags, and keeps them wide open for easy filling.

The clear bags allow you to see what's inside at a glance, and are made of food-grade silicone with a seamless construction. Highly durable, the bags can be turned inside out for thorough cleaning. Pop them in the dishwasher or wash by hand, and then fold them away for space-saving storage. Dishwasher, freezer and microwave safe. Available in an Oat colourway.
